

## **IBM collaborates with varsity**

**Chennai:** As a part of the IBM Innovation Centre for Education program, IBM will support Great Lakes International University, SriCity, outskirts of Chennai, in design and delivery of innovative curriculum. IBM faculty will participate through webinars and seminars and connecting experts from the industry. The students will be able to access online course material and be a part of discussion forums to learn real-time. Great Lakes International University is collaborating with IBM to offer specialized courses in the cutting edge technology areas of Cloud Computing & Cyber Security and Big Data Analytics etc. TNN
